

ARE YOU SELLING **COLOR** & **COMFORT?**

Both Are Available From
Weather King[®]

Vinyl Windows

Steel Doors

*Storm Windows
& Doors*

Fiberglass Doors

In today's market, homeowners are looking for ways to get the most out of their choices, so you should look for the companies that offer you the BEST options.

Weather King offers the BEST color finishes with our textured acrylic wrapped exterior colors with white interiors giving a much deeper and richer finish that resists fading, scratching and scuffing better than any flat painted surface.

Add the triple glazed window options and you truly get the BEST windows & doors. The Regal and Regal R-5 windows add superior sound suppression and maximum energy performance to allow the homeowners the ultimate in design and comfort.

***Celebrating
Over 61 years***

Weather King's Multi-Layered Acrylic Exterior Colors

Our Storm Windows & Doors are now offered in White and all 11 of our acrylic wrap colors with white interiors.

The multi-layered acrylic laminate uses several layers to establish a finished look unavailable from paint. The color looks deeper and the texture helps provide outstanding colorfastness and exceptional weatherability. Weather King now offers the laminated finish on all our products so that you can coordinate your home with your choice of color. The finish is easy to clean with standard cleaners and will retain its beauty for years.

Door Stain Finishes

Interior Window Wood Grains

Available on White or Almond

The vinyl windows can be finished in any of the 11 exterior acrylic laminate colors, or the 3 Interior Wood Grains, that are applied in our factory to either white or almond frames. The colors and laminates can be combined in any configuration to best suit your desires.

The Steel & Fiberglass Entry Doors are painted in our new paint spray booth using a revolutionary exterior grade paint for an exceptionally high quality finish and have finished frames with either the white vinyl wrap or the matching acrylic laminate in any of the 11 colors. The complete jamb is wrapped; including the interior door pocket and the brick mold, to offer a far superior finished product. The laminated brick mold allows for easy installation of a storm door while maintaining the preferred contoured look with maintenance free protection. The fiberglass doors can also be stained in any of the 5 stain finishes with frames featuring the white vinyl wrap, 11 acrylic laminates or a stained FULL composite frame with matching brick mold.
